WELCOME LETTER

Dear Forum Participants:

We are pleased to welcome you to the 2022 Airport Minority Advisory Council (AMAC) Economic Opportunity and Policy Forum here in our nation's capital, Washington, DC! Over the next two days, we will provide opportunities for you to connect and exchange economic and policy insights with the ultimate goal of elevating women and minorities throughout the aviation industry. As this forum returns for the second time, we thank our forum partner, Baltimore/Washington International Thurgood Marshall Airport (BWI Marshall), and all of our sponsors for bringing this event into reality.

As the industry recovers and we all diligently work to overcome the impacts of the COVID-19 pandemic, we must recognize the pivotal moment in transportation history that we are in through the Bipartisan Infrastructure Law. This historic investment into our nation's infrastructure, particularly airports, marks a tremendous opportunity to fuel AMAC's mission of advancing the full participation of minorities and women in employment and business opportunities throughout the aviation and aerospace industries. The time is now for us to work in partnership to help achieve AMAC's mission.

The AMAC Economic Opportunity and Policy Forum includes a robust schedule with business-focused sessions featuring topics ranging from new approaches to business success to leveraging the legislative process for success to current and future trends. You will also hear from prominent Congressional and Administration leadership and receive updates on the Disadvantaged Business Enterprise (DBE) and Airport Concessions Disadvantaged Business Enterprise (ACDBE) programs. Not only will valuable content be available for DBEs/ACDBEs, but the Architecture, Engineering and Construction (AEC) community will also be highly-represented.

On behalf of AMAC and BWI Marshall, post-forum, we hope you depart with a renewed mindset and move the various dialogue into action. We encourage you to join AMAC or renew your membership. You can review our membership levels, benefits, advocacy initiatives, programs, events and more at www.amac-org.com. Your commitment to AMAC amplifies your active support of creating more equity for minorities and women in the aviation and aerospace industries. We acknowledge and thank you for participating in this valuable event.

Experience the Future

The future is here.

We call it the Fraport Experience.

It's the unique entertainment we offer – from interactive play and live music to passenger lounges and local flair. And it's the superior customer experience we bring to travel and travelers every day, through 31 airports in 11 countries and four continents around the globe.

Fraport has changed travel for the passenger.

We recreated modern airport retail when we introduced street pricing, exceptional brands and competition to U.S. airports. And we continually reinvent the experience with new brands, innovative technologies, and the authentic appeal that comes with a true sense of place in regional food, retail and design.

We also work closely with airport authorities to better reach and serve people in motion – from passengers and crew to ACDBE owners and the communities who look to our airports to be an economic catalyst for their region.

Reform, Strengthen and Modernize—A New Approach to Business

The COVID-19 pandemic forced almost every business, including federal agencies, to change its operation. The “new normal” demands thinking beyond numbers, focusing on economic development and business growth, so more people can achieve success and build wealth, workforce and business diversity. Hear from industry leaders on why that is important to the success of the airport industry and what you can do to prepare yourself, your team and potentially your clients for success.

National, Regional and Local Business Opportunities—Construction, Concessions, Professional Services and Contracting

Airports are economic engines not just for cities but for entire regions. Airports provide millions of jobs across the country in various roles, from engineering to human resources to food service to recruitment and contracting. Airport representatives from small, medium and large airports will share business and employment opportunities for minorities, women, small contractors and suppliers beyond the ACDBE/DBE program (e.g., PFC-funded projects, daily goods/services procurements), plus upcoming AEC, concession and other non-federally funded contracts.

WHAT IS AMAC?

History

Since 1984, AMAC has been at the forefront of nearly every national policy initiative impacting the participation of disadvantaged businesses in airport contracting.

Mission

To advance the full participation of minorities and women in employment and contracting opportunities throughout the aviation and aerospace industries.

Vision

To create economic equity, access and wealth for minorities and women in the aviation and aerospace industries.
